IMS
Implementation Training

The IMS Implementation Training provides the participant to gain the necessary knowledge and expertise to implement and manage the Integrated Management System (IMS) in the organization as per the requirements of IMS.

The participant will gain a deep understanding of IMS and how it is supposed to be implemented in any organization. This course will cover topics of IMS standard including the Information Security Management Policy, Procedures, Management Commitment & Leadership, Planning, Support, Operation, Performance Management, Internal Audit, Management Review, and Continual Improvement.

Integrated Management System Standard includes ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 that is Quality Management System, Environmental Management System, and Occupational Health and Safety Management System Standard. As well as can integrate other standards as well as per requirements.
